Chinese is considered one of the most difficult languages to master. However, using the Chineasy system, anyone can begin to understand and read Chinese. It works by transforming Chinese characters into illustrations to make them easy to remember. This book teaches the key characters on which the language is built and how these characters can be combined to form more complex words and phrases. Learning Chinese has never been this simple or more fun!

In this book, Dr. Billings shares the "secret sauce" which has made the Acellus Learning System a game changer for thousands of schools coast-to-coast. Acellus makes a science of the learning process. It contains tools to recover discouraged students and to accelerate the learning process. In these pages, the author shares the tools, the techniques, and the magic of Acellus that is changing education, discussing important aspects of the system: - What is Acellus? - How does it work? - What happens when a student gets stuck? - How does Acellus accelerate the learning process? Dr. Maria Sanchez, Chairman International Academy of Science

The Gift of the Magi is a treasured short story written by O. Henry. A young and very much in love couple can barely afford their one-room apartment, let alone the extra expense of getting Christmas presents for one another. But each is determined to show their love for the other in this traditional time of giving; each sells a thing they hold most dear in order to afford a present, with poignant and touching results that capture their love for one another.

Saki. Years of rivalry and feuding between the von Gradwitzes and the Znaeyms seemingly come to an end when the two heads of the families find

themselves in a life-or-death situation. Unfortunately, their reconciliation comes too late. 40 pages. Tale Bla

Life on the Mississippi (1883) is a memoir by Mark Twain of his days as a steamboat pilot on the Mississippi River before the American Civil War. It is also a travel book, recounting his trip along the Mississippi River from St. Louis to New Orleans many years after the war. The book begins with a brief history of the river as reported by Europeans and Americans, beginning with the Spanish explorer Hernando de Soto in 1542. It continues with anecdotes of Twain's training as a steamboat pilot, as the 'cub' (apprentice) of an experienced pilot, Horace E. Bixby. He describes, with great affection, the science of navigating the ever-changing Mississippi River in a section that was first published in 1876, entitled "Old Times on the Mississippi". Although Twain was actually 21 when he began his training, he uses artistic license to make himself seem somewhat younger, referring to himself as a "fledgling" and a "boy" who "ran away from home" to seek his fortune on the river, and playing up his own callowness and naïveté.

Colonel Archibald Gracie IV, an American writer, amateur historian, and member of New York's prominent Gracie family, boarded the Titanic as a first-class passenger on his return trip home from a visit in Europe. In the fateful early morning hours of April 15, Gracie assisted Second Officer Lightoller in freeing the collapsible lifeboats before he scrambled atop overturned Collapsible "B" to avoid being pulled down by the undertow of the sinking ship. Gracie survived the harrowing night atop the lifeboat and returned to New York aboard the Carpathia, beginning work on an account of his Titanic experience upon his arrival home. Published shortly after Gracie's death in December 1912 (his health never recovered after the calamity), "The Truth About the Titanic" remains one of the most popular accounts of the sinking for its painstaking detail.

Willa Cather is considered to be one of the best chroniclers of pioneer life in the 20th century. She had a long and distinguished career writing essays, poems, short stories, and novels. This story is a powerful example of a frequent theme: the haunting, sometimes painful, contrast between city and country life.
