The Course of Love is a novel that explores not so much the start of love, as its maintenance over time; the way our ideals bend and reform under the pressures of an average existence, and the magnificent, sometimes frightening, developments we can make as we slowly realise that love is in essence a skill we need to learn rather than an enthusiasm we simply experience.

The Course of Love by Alain De Botton - Books-A-Million

In his first novel, On Love, philosopher Alain de Botton catalogued the process of falling in and out of love, putting his own unique and perceptive spin on the modern day love story. Now, over two decades later, de Botton finds himself deeply fascinated by another facet of love, one that literature and films too often neglect: Having fallen in love and committed ourselves to another person, what is it like to have been married awhile?

What does it mean to live happily ever after? At dinner parties and over coffee, Rabih and Kirsten's friends always ask them the same question: how did you meet? The answer comes easily - it's a happy story, one they both love to tell. But there is a second part to this story, the answer to a question their friends never ask: what happened next? Rabih and Kirsten find each other, fall in love, get married. Society tells us this is the end of the story. In fact, it is only the beginning. From the first thrill of lust, to the joys and fears of real commitment, to the deep problems that surface slowly over two shared lifetimes, this is the story of a marriage. It is the story of modern relationships and how to survive them. Playful, wise and profoundly moving, The Course of Love is a delightful return to the novel by Alain de Botton, twenty years after his debut *Essays in Love*.

partnership. We all know the headiness and excitement of the early days of love. But what comes after? In Edinburgh, a couple, Rabih and Kirsten, fall in love. They get married, they have children—but no long-term relationship is as simple as “happily ever after.” The Course of Love explores what happens after the birth of love, what it takes to maintain, and what happens to our original ideals under the pressures of an average existence. We see, along with Rabih and Kirsten, the first flush of infatuation, the effortlessness of falling into romantic love, and the course of life thereafter. Interwoven with their story and its challenges is an overlay of philosophy—an annotation and a guide to what we are reading. As The New York Times says, “The Course of Love is a return to the form that made Mr. de Botton’s name in the mid-1990s....love is the subject best suited to his obsessive aphorizing, and in this novel he again shows off his ability to pin our hopes, methods, and insecurities to the page.” This is a Romantic novel in the true sense, one interested in exploring how love can survive and thrive in the long term. The result is a sensory experience—fictional, philosophical, psychological—that urges us to identify deeply with these characters and to reflect on his and her own experiences in love. Fresh, visceral, and utterly compelling, The Course of Love is a provocative and life-affirming novel for everyone who believes in love. “There’s no writer alive like de Botton, and his latest ambitious undertaking is as enlightening and humanizing as his previous works” (Chicago Tribune).

having affairs, it follows the progress of a single ordinary relationship: tender, messy, hilarious, painful, and entirely un-Romantic. It is a love story for the modern world, chronicling the daily intimacies, the blazing rows, the endless tiny gestures that make up a life shared between two people. Moving and deeply insightful, *The Course of Love* offers us a window into essential truths about the nature of love.

In Edinburgh, a couple, Rabih and Kirsten, fall in love. They get married, they have children -- but no relationship is as simple as "happily ever after." *The Course of Love* is a novel that explores what happens after the birth of love, what it takes to maintain love, and what happens to our original ideals under the pressures of an average existence. With philosophical insight and psychological acumen, Alain de Botton shows that our Romantic dreams may do us a grave disservice -- and explores what the alternatives might be. The conclusion, as the characters gradually discover, is that love is not "an enthusiasm," but rather a "skill" that must be slowly and often painfully learnt. This is a Romantic novel in the true sense, one interested in exploring how love can survive and thrive in the long term.

Alain de Botton combines two unlikely genres--literary biography and self-help manual--in the hilarious and unexpectedly practical *How Proust Can Change Your Life*. Who would have thought that Marcel Proust, one of the most important writers of our century, could provide us with such a rich source of insight into how best to live life? Proust understood that the essence and value of life was the sum of its everyday parts. As relevant today as they were at the turn of the century, Proust's life and work are transformed here into a no-nonsense guide to, among other things, enjoying your vacation, reviving a relationship, achieving original and

uncliché articulation, being a good host, recognizing love, and understanding why you should never sleep with someone on a first date. It took de Botton to find the inspirational in Proust's essays, letters and fiction and, perhaps even more surprising, to draw out a vivid and clarifying portrait of the master from between the lines of his work. Here is Proust as we have never seen or read him before: witty, intelligent, pragmatic. He might well change your life.

The bestselling author of *The Architecture of Happiness* and *How Proust Can Change Your Life* revisits his utterly charming debut book, *Essays in Love*. The narrator is smitten by Chloe on a Paris-to-London flight, and by the time they've reached the luggage carousel he knows he is in love. He loves her chestnut hair, watery green eyes, the gap that makes her teeth Kantian and not Platonic, and her views on Heidegger's *Being and Time* — but he hates her taste in shoes. What makes this book extraordinary is the depth with which the emotions involved in the relationship are analysed. Love comes under the philosophical microscope. Plotting the course of their affair from the initial delirium of infatuation to the depths of suicidal despair, through a fit of anhedonia — defined in medical texts as a disease resulting from the terror brought on by the threat of utter happiness — and finally through the terrorist tactics employed when the beloved begins, inexplicably, to drift away, *Essays in Love* is filled with profound and witty observations on the pain and exhilaration of love. An entire chapter is devoted to the nuances and subtexts of an initial date, while another chapter mulls over the question of how and when to say "I love you." With allusions to Aristotle, Sartre, Wittgenstein, and Groucho Marx, de Botton has plotted an imaginative and microscopically detailed romance.

Anyone who's ever lost sleep over an unreturned phone call or the neighbor's Lexus had better read Alain de Botton's irresistibly clear-headed new book, immediately. For in its pages, a master explicator of our civilization and its discontents turns his attention to the insatiable quest for status, a quest that has less to do with material comfort than with love. To demonstrate his thesis, de Botton ranges through Western history and thought from St. Augustine to Andrew Carnegie and Machiavelli to Anthony Robbins. Whether it's assessing the class-consciousness of Christianity or the convulsions of consumer capitalism, dueling or home-furnishing, *Status Anxiety* is infallibly entertaining. And when it examines the virtues of informed misanthropy, art appreciation, or walking a lobster on a leash, it is not only wise but helpful.

The news is everywhere. We can't stop constantly checking it on our computer screens, but what is this doing to our minds? We are never really taught how to make sense of the torrent of news we face every day, writes Alain de Botton (author of the best-selling *The Architecture of Happiness*), but this has a huge impact on our sense of what matters and of how we should lead our lives. In his dazzling new book, de Botton takes twenty-five archetypal news stories—including an airplane crash, a murder, a celebrity interview and a political scandal—and submits them to unusually intense analysis with a view to helping us navigate our news-soaked age. He raises such questions as Why are disaster stories often so uplifting? What makes the love lives of celebrities so interesting? Why do we enjoy watching politicians being brought down? Why are upheavals in far-off lands often so boring? In *The News: A User's Manual*, de Botton has written the ultimate guide for our frenzied era, certain to bring calm, understanding and a measure of sanity to our daily (perhaps

even hourly) interactions with the news machine. (With black-and-white illustrations throughout.)

Literary ombudsman John Crace never met an important book he didnt like to deconstruct. From Salman Rushdie to John Grisham, Crace retells the big books in just 500 biting satirical words, pointing his pen at the clunky plots, stylistic tics and pretensions to Big Ideas, as he turns publishers golden dream books into dross. In the grand tradition of Tom Lehrer and Stan Freberg, Crace takes the books that produce the most media hype and retells each story in its authors inimitable style. Philip Roth, Don DeLillo, Margaret Drabble, Paul Auster, Alice Sebold, John Updike, Tom Wolfe, Ruth Rendell, A.S. Byatt, John LeCarre, Michael Crichton and Ian McEwan all emerge delightfully scathed in this book that makes it easy to talk knowingly about books youve never bothered to read or, for that matter, should have.

Any Baedeker will tell us where we ought to travel, but only Alain de Botton will tell us how and why. With the same intelligence and insouciant charm he brought to *How Proust Can Save Your Life*, de Botton considers the pleasures of anticipation; the allure of the exotic, and the value of noticing everything from a seascape in Barbados to the takeoffs at Heathrow. Even as de Botton takes the reader along on his own peregrinations, he also cites such distinguished fellow-travelers as Baudelaire, Wordsworth, Van Gogh, the biologist Alexander von Humboldt, and the 18th-century eccentric Xavier de Maistre, who catalogued the wonders of his bedroom. *The Art of Travel* is a wise and utterly original book. Don't leave home without it.
