From the award-winning advertising team, a creative, fresh and brutally honest guide to taking on the working world on your own terms Janet Kestin and Nancy Vonk have built their careers on unconventional creative thinking. As two of the leaders behind Dove ' s Campaign for Real Beauty, they famously championed stripping away photoshopping, lighting and makeup to sell real beauty. After years of rethinking brands, they decided that they wanted to focus on rethinking the way we work—or, in many cases and places, the way our work doesn ' t work for us—especially for women. They ' ve tackled the problem in their hallmark style: by turning expectations upside down and shaking them. Soundly. Darling, You Can ' t Do Both is a smart, relatable guide for all of the women who embraced the spirit of Lean In but were left wondering where to start—how could they, in all industries and at all levels, really begin to change their realities and maybe even their companies, from the ground up? Janet Kestin and Nancy Vonk ' s answer is that women need to start breaking the largely unspoken rules of business they ' ve always tacitly accepted. Darling will spark a new thread of conversation about women in the workplace—one that ' s about new strategies for every woman with ambition who is moving (and looking) forward—with motherhood not a roadblock but an unfair advantage.

Second Helpings continues Megan McCafferty's New York Times bestselling series - now with a new foreword by New York Times bestselling author Rebecca Serle Jessica Darling is in her senior year of high school and things can ' t seem to get worse: her best friend, Hope, still lives in another state, and the mysterious and oh-so-compelling Marcus Flutie

continues to be a distraction she doesn't need. Not to mention her parents won't get off her back about choosing a college, and her older sister's pregnancy is causing quite a bit of drama in the Darling household. The second book in Megan McCafferty's critically acclaimed Jessica Darling series is fun, irreverent, and shows that being a teenager is never easy (or boring). Now with a foreword from New York Times bestselling author Rebecca Serle and a new author's note from Megan McCafferty!

We worry putting our family first means we'll be forced to abandon our careers. We're afraid if we pause our careers, we'll be forever off-track. This thinking is outdated—forget what you've heard about how pauses are career limiting, about how those who pause lack ambition, or that if you do pause you won't be able to re-enter the paid workforce. That's a flawed reality, one that doesn't reflect the truth of the careers of some of the most successful women in this country. Author Lisen Stromberg knows this success firsthand. After the birth of her second child, she did something she never imagined she would do: she opted out to focus on her family. But her career didn't end there. Lisen paused then pivoted to become first a social entrepreneur and then an award-winning journalist writing about women, work, and life in Silicon Valley. Along the way, she learned she wasn't alone. Lisen met many highly successful women who told her they never "opted out" but who had, in fact, temporarily downshifted or paused their careers. Their hidden journeys revealed alternative nonlinear paths to the top that enabled them to achieve their personal and professional goals. In *Work PAUSE Thrive*, Lisen shares their stories. Deeply rooted in social science research, cutting-edge data collected from nearly 1,500 women, and through 186 first-person interviews, this book reveals how trailblazing

women have disrupted the traditional career paradigm. What worked for them can work for you. In this book, you'll learn: Who pauses, how they do it, and why How pausing can enrich both your career and your life How to innovate your own nonlinear career path What we can—and need—to do as a society to make it possible for more people to achieve their personal and professional goals Work PAUSE Thrive also reveals new and exciting trends in the workplace and offers targeted solutions for companies to help ensure they have cultures that will enable you to lead the life you want, a life in which you can build both a career and a family, and ultimately your own version of a life well lived.

It's the one thing they can carry with them each and every day. If love could take shape it might look something like these heartfelt words and images from the inimitable Nancy Tillman. Wherever You Are is a book to share with your loved ones, no matter how near or far, young or old, they are.

Describes more than 60 impossible tricks, each based on scientific principles which are explained in accompanying text.

One hundred million betrothal gifts, she was forced to marry a tyrant who was said to have been disfigured. He was being chased by his enemies, and when the two of them had landed on the island, she had abandoned him and fled ... "I let you into my world, but I didn't give you the guts to walk around in it!" Su Nian An gritted his teeth. "Let go of me!" He laughed wildly, "Release?" It doesn't exist. "

"One of the most momentous debuts in years: A transcendent novel that strikes a deep emotional chord, My Absolute Darling combines a page-turning female survival story, an arresting use of language, and a heart-wrenchingly powerful redemptive arc"--

Devastated when her best friend moves away, sixteen-year-old Jessica Darling feels isolated at school and at home, as she struggles to deal with her father's obsession with her track meets, her boy-crazy peers, and her own nonexistent love life.

After surviving childhood at the snooty, stuck-up boarding school for budding omegas, I have everyone convinced I'm a dud. My awakening? Never gonna happen. Heat, mates, and a fairytale pack life? Maybe next reincarnation. All I want is to be left alone. I'm invisible, headed to a blissful solo future until the Wyvern Pack destroys my dream of independence. Atlas, Hunter, Finn, Jett, and Orion are poison candy. They don't want an omega, but they need one, even if there'll never be a real spot for me in their pack. Who needs a pack? I'll keep myself safe, same as always. I'll never awaken, and I'll never ever give the Wyverns my heart... Because all they'll do is rip me apart. Burn: Slow Heat: Med/High (spicy MM + MMMMM scenes) Warning: Contains MM content, frequent cursing, and references to past assault that may be disturbing. Author not responsible for ugly crying.
