The DME 3000-DP uses RS-485 as transmission technique. This transmission type is the most common for PROFIBUS. The application range includes all areas in which a high transmission speed and a simple, inexpensive installation technique are required. A paired, shielded copper cable is used with a conductor pair.

DME 3000 has a range of up to 500 m. A measurement range of 0.5 to 250 m is possible with simple Diamond Grade reflective tape. Serial interfaces permit external further processing of the meas-ured values. Interfacing to Profibus is also possible and the DME can be connected to warehouse con-trol circuits via the SSI interface. Now even faster!

NOTE: NO FURTHER DISCOUNT FOR THIS PRINT PRODUCT--OVERSTOCK SALE -- Significantly reduced list price Designed for use by instrument flight instructors and pilots preparing for instrument rating tests. Instructors may find this handbook a valuable training aid as it includes basic reference material for knowledge testing and instrument flight training. This handbook conforms to pilot training and certification concepts established by the US Federal Aviation Administration. This resource adopts selected methods and concepts for instrument flying. The discussion and explanations reflect the most commonly used practices and principles. Occasionally the word "MUST" or similar language is used where the desired action is deemed critical. The use of such language is not intended to add to, interpret, or relieve a duty imposed by the United States Title 14 of the Code of Federal Regulations (14CFR). All of the aeronautical knowledge and skills required to operate in instrument meteorological conditions (IMC) are detailed. Chapters are dedicated to human and aerodynamic factors affecting instrument flight, the flight instruments, attitude instrument flying for airplanes, basic flight maneuvers used in IMC, attitude flying for helicopters, navigation systems, the National Airspace System (NAS), the air traffic control (ATC) system, instrument flight rules (IFR) flight procedures, and IFR emergencies. Clearance shorthand and integrated instrument lesson guide are also included.
