This fascinating book tells the complete story of the early days of TVR, from Trevor Wilkinson establishing the company in 1946 through to the Martin Lilley years, which came to an end in 1982. The design and development of these classic British sports cars, with their defining characteristics of tubular backbone chassis and glass fibre bodywork, are described in detail. Illustrated with over 200 colour and black and white photographs the book covers all the early years, including the Sports Saloon, the Jomar, the Open Sports, TVR's first true production car the Grantura from 1958, Griffith models with their remarkable 289 cu in Ford V8 motors, the Vixen and Tuscan range of the late 1960s, the M Series models launched in 1972 and finally, the Tasmin range introduced in 1980. This essential reference work for all TVR owners and enthusiasts gives detailed descriptions of all models, full specification sheets, advice and guidance on owning and running a classic TVR and is superbly illustrated with 233 colour and 31 black & white photographs.

The constitution, properties, production and applications of lubricants and related fluids of all states of aggregation are reviewed in this volume. Special attention is devoted to synthetic lubricants and to additives for lubricants. Standards of quality are listed, together with systems of classification and the most important specifications and methods of testing the properties of lubricants and their performance in service. Future trends in lubricants are also discussed. Non-conventional lubricants and additives are examined in detail. The relationship between constitution and properties of lubricants, e.g., the viscosity -temperature -pressure relationship, the behaviour in ageing, the biodegradability, synergisms and antagonisms in the blends of lubricants, of additives and lubricant-additive are analyzed. Guidelines for the selection of lubricants and fluids in the design, service and maintenance of machines and machine parts are also given. The work will be of interest to all those involved in the research and development of petrochemical and machinery industries, as well as lecturers and students specializing in this field.

Expert practical advice from an experienced race engine builder on how to build a high-performance version of Ford's naturally aspirated 4-cylinder 1600, 1800 & 2000cc Pinto engine which has been used in Ford's most popular cars (Escort, Capri, Cortina & Sierra - Ford/Mercury Capri, Pinto, Bobcat in USA) over many years. Whether the reader wants a fast road car or to go racing, Des explains, without using technical jargon, just how to build a reliable high-power engine using as many stock parts as possible and without wasting money on parts and modifications that don't work.Also covers Cosworth versions of Pinto engines and fitting Cosworth heads to Pinto blocks. Does not cover 1300, E-Max 1600 or American-built 2300.

Ever been forced to build your own car?THE SEVEN, the legendary Lotus sports car that first appeared in 1957 is still in production, as a kit. If you want one you must build it.The author sets out to build a Caterham Seven without first acquiring the needed skills. The fingertip ease of the digital age is replaced by unheated garages, fumes and typed instructions obscured by oily fingerprints. Between chapters a running history, illustrated with cartoons, tells the Seven's 50 year story using quotes from the many articles, test drives and books on the car. For anyone who has ever wanted to build something with their own hands - despite skill, aptitude and experience.Why build A Seven?Putting a sports car on the road.

Presents a history of sports cars from the earliest models, to the hot rods of the 1950s and 1960s, to contemporary styles

The story of restoring an Elan +2 and Elan Sprint to concours edition. Advice on how to purchase a suitable car for restoration plus detailed practical information on preparing bodywork, trim, chassis, suspension, wheels, hydraulics, engine, electrics & wiring etc. 24 Chapters, plus appendices, give information on chassis changing, body restoration, including Elan +2 sills, rebuilding the Lotus/Ford Twin Cam engine, electrics including fitting a new loom, insight to tuning and running in, Elan developments, a remarkable Elan +2 Estate, rebirth of an accident damaged Sprint.

This book covers the entire history, life and times of the famous British high-performance engineering company, from its 1958 foundation by Mike Costin and Keith Duckworth, through its often-exciting and always fascinating evolution, to its expansion and worldwide success in both motorsport and high-performance road car production.

In his trademark straight-talking, no-nonsense style Mark Webber reveals his amazing life on and off the Formula One race track in Aussie Grit. Mark Webber was at the centre of one of the most captivating chapters in the history of Formula One. In 2010, while racing for Red Bull, he and his team mate Sebastian Vettel went head to head for the World Championship. There could only be one winner. Since retiring from Formula One Mark has concentrated on endurance racing, including the legendary Le Mans 24 Hour race. He hit the front pages of newspapers around the world in December 2014 when he slammed into the barricades in the final round of the FIA World Endurance Championship in South America, and was lucky to escape with his life. But the controversy of his relationship on and off the track with Vettel, who went on to win multiple world titles, has never been far beneath the surface. Here, for the first time, Webber tells the inside story of one of Formula One's most intriguing battles – it is a story that goes to the heart of why the sport is loved by millions of fans around the world. From his first taste of karting to his F1 debut in 2002, scoring Minardi's first points in three years at the Australian Grand Prix, through to his first win with Red Bull at the 2009 German Grand Prix and the year he should have been crowned World Champion. Mark Webber's journey to the top of Formula One was every bit as determined and committed as his racing. Aussie Grit is his searingly honest story. Includes a foreword by Formula One legend Sir Jackie Stewart.
