The first International Conference on Energy Efficiency in Household Appliances was held in Florence, Italy, in November 1997. This book provides a full account of presentations made, discussions and conclusions reached during the four days of the Conference. It offers a comprehensive picture of the issues at stake, of the results achieved so far through the design and application of standards, the promotion of a better consumer information, the development of energy efficient products and technologies as well as of test methods and other analytical tools.
