Through this fascinating story we experience the adventure, the painstaking work, the magic, the excitement and the awe through the eyes of the "tomb raider" himself, archaeologist Howard Carter. This book tells the story of one of the greatest archeological discoveries ever, the discovery of the intact tomb of the 18th Dynasty Pharaoh, Tutankhamun (colloquially known as "King Tut" and "the boy king"), in November 1922.

A motivational speaker takes on entitlement culture, the self-help movement, and political correctness to discuss how to reject victimhood, become more assertive, and take responsibility.

Community colleges enroll half of the nation ' s undergraduates. Yet only 40 percent of entrants complete an undergraduate degree in six years. Redesigning America ' s Community Colleges explains how two-year colleges can increase their students ' success rate quickly and at less cost, through a program of guided pathways to completion.

This book provides a solid introduction to the foundation and the application of the finite element method in structural analysis. It offers new theoretical insight and practical advice. This second edition contains additional sections on sensitivity analysis, on retrofitting structures, on the Generalized FEM (X-FEM) and on model adaptivity. An additional chapter treats the boundary element method, and related software is available at www.winfem.de.

""Making Connections" Microbiology: A Systems Approach is a non-majors/allied health microbiology textbook that has quickly become known for its unique organization, engaging writing style, and instructional art program. Cowan's "building blocks" approach establishes the big picture first and then gradually layers concepts onto this foundation. This logical structure helps students build knowledge and connect important concepts."--Publisher's website.
