of friendship in this charming picture book that celebrates being different. A boy likes to dress as a cat, but his best friend ' s dog objects. What will he dress as now? A giraffe? A fox? A shark? When his best friend, Camille, suggests a frog, they work together to make the frog costume...until Camille runs out of patience. So the boy makes a list of the pros and cons of being a frog: Pros: 1. My friend Camille gave me the idea 2. I ' m less likely to be chased by a dog 3. Being in a frog costume makes me feel brave Cons: 1. Not everyone loves wearing a frog costume as much as me 2. If you start getting bossy about your frog costume then your friend will get up and leave 3. A frog is NOT a solitary creature so it is no fun for a frog if his friend gets up and leaves Luckily, he won ' t have to choose, because true friendship means accepting each other ' s differences: he can be himself and have his friend Camille.

Management, Corporate Governance, grade: 1, , language: English, abstract: Global outsourcing of jobs is one of the most debated topics in management studies over the years because of the increasing concerns on economics perspective, technological perspective, organizational perspective, political perspective, and strategic perspective. Research shows that the labour market abroad has been increasing over the years thus posing an economic challenge at home, and this is the reason why most of the firms both large and small outsource jobs for instance, professional services in the less expensive labour markets abroad. Most of the leading firms across the globe outsource most of the jobs for instance, professional services so as to achieve a competitive advantage. However, most of these firms are faced with the need to examine the long-term impacts on the business and the society (both pros and cons of global outsourcing of jobs) for competitive advantages. From an economic perspective, it is argued that cost consideration is the most prominent decision making factor in any organization as most of the managers aim at minimizing the cost of operation so as to achieve a competitive edge in the global market because the goods and services are made competitive in the global market. However, there are those who argue that global outsourcing of jobs results into permanent job loss home, and this has an impact on the society where these firms operate. That said, global outsourcing of jobs needs to be analyzed in details in order to examine the benefits and costs associated with it before making outsourcing options. The research paper will, therefore, analyze some of the pros and cons of global outsourcing of jobs which can be used by managers as they make their outsourcing options for competitive advantage in the global market.
