Five years in the writing by one of science fiction's most honored authors, *Doomsday Book* is a storytelling triumph. Connie Willis draws upon her understanding of the universalities of human nature to explore the ageless issues of evil, suffering and the indomitable will of the human spirit. For Kivrin, preparing an on-site study of one of the deadliest eras in humanity's history was as simple as receiving inoculations against the diseases of the fourteenth century and inventing an alibi for a woman traveling alone. For her instructors in the twenty-first century, it meant painstaking calculations and careful monitoring of the rendezvous location where Kivrin would be received. But a crisis strangely linking past and future strands Kivrin in a bygone age as her fellows try desperately to rescue her. In a time of superstition and fear, Kivrin—barely of age herself—finds she has become an unlikely angel of hope during one of history's darkest hours. Praise for *Doomsday Book* “A stunning novel that encompasses both suffering and hope. . . . The best work yet from one of science fiction’s best writers.”—The Denver Post “Splendid work—brutal, gripping and genuinely harrowing, the product of diligent research, fine writing and well-honed instincts, that should appeal far beyond the normal science-fiction constituency.”—Kirkus Reviews (starred review) “The world of 1348 burns in the mind’s eye, and every character alive that year is a fully recognized being. . . . It becomes possible to feel . . . that Connie Willis did, in fact, over the five years *Doomsday Book* took her to write, open a window to another world, and that she saw something there.”—The Washington Post Book World

Almost all organisations today face unprecedented levels of change,

complexity and volatility. Navigating the resultant disruption dynamics is one of the most important stewardship challenges facing strategic leaders. Getting it right can pay enormous dividends, but getting it wrong can lead to spectacular failure and the ultimate demise of once admired organisations. To address this threat, strategic leaders need to better understand how to navigate complexity and volatility and how to execute strategy in this rapidly changing environment. This book identifies 12 different strategy execution processes used to realise deliberate and emergent strategies - each illustrated with case studies and essential lessons for strategic leaders. The authors then discuss the effectiveness of these processes in different types of complex environments, showing how, used in isolation, each process can, at times, impede performance, sometimes creating survival risks that materialise today or in the future. The authors show the importance of "ambidexterity" and the need for organisations to balance the pursuit of internal efficiency and external market flexibility, both of which are essential to thriving in complex environments. This book provides essential tools for leaders to rethink and reconfigure their strategy execution practices in light of the significant change surrounding their organisations. The book is based on a 5-year, multistage study comprehensively reviewing cutting-edge research on strategy execution, reviewing seminal texts on strategy execution and, through in-depth case study interviews and cross-sectional surveys, identifying contemporary strategy execution practices of a range of different organisations across industries and sectors.

A tale set in post-revolutionary Iran follows the experiences of Neda, Omid, Sheida, and other individuals from three generations of families whose political activist loved ones were murdered during the violent purges inside Tehran's prisons.

Young people's natural questions, behaviors and curiosities around sexuality create some of life's awkward and challenging moments for parents. Yet these opportunities invite parents to have important conversations - to share personal values, beliefs, and age-appropriate information with their children. *There's No Place Like Home... for Sex Education* offers a friendly and practical guide for having these conversations with confidence, comfort, and humor, from the experts at Planned Parenthood of Southwestern Oregon. Mary Gossart has worked in the field of health and sexuality education since 1975. As the Vice President of Education and Training at Planned Parenthood of Southwestern Oregon, and more importantly as a mom and "Grammy," she supports families in having honest, intentional communication about sexuality.

These essays explore the processes of change in Indian society over the period from about the seventh to the thirteenth century. Departing radically from the current historiography on the period, the author posits change as represented by processes of progressive transformation, not by the breakdown of an earlier social order. Within this framework, he discusses such diverse themes as irrigation, urbanization, the formation of a dominant ruling caste, and the structure of polity in general.
